

Avery Hill Education

Home Learning Solution

We offer tailored online language classes

Our Team & Courses

We offer structured and fun online language learning courses. We believe that language immersion, particularly from a young age, lays solid educational and developmental foundations.

Our team is composed of senior language experts tasked with designing and developing our online language courses and resources. They are qualified and experienced professionals with teaching experience in the UK and abroad. Their international backgrounds bring a wider and richer perspective to our courses; one that includes creativity and critical thinking. They know what works and what does not. They are dedicated to offering our students high-quality online courses.

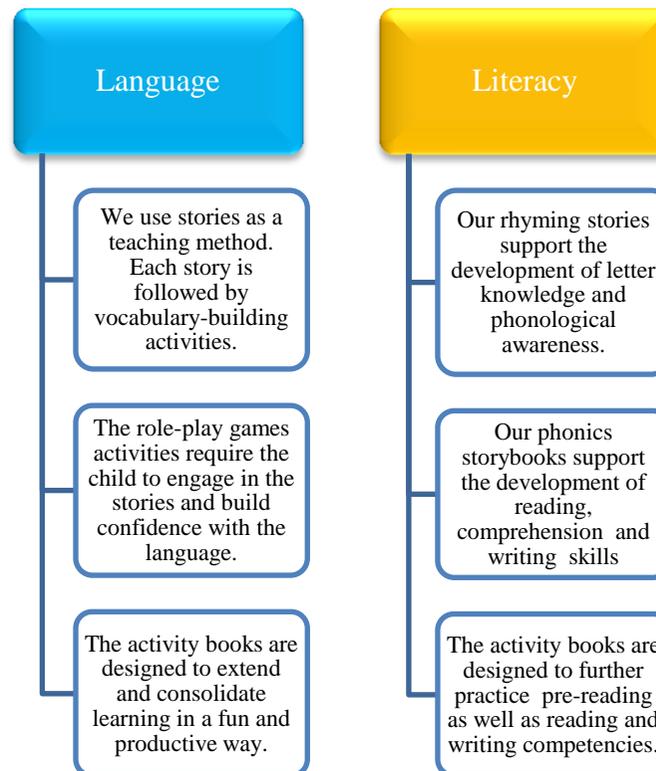

Our programme, ***Let's Learn & Play***, is designed for children aged between 4 and 5 years old and focuses on the use of stories and role-play games to ignite interest in language acquisition. *Let's Learn & Play* is followed by ***Let's Learn & Read***, a programme designed for children aged between 5 and 9 years old which supporting language and reading competencies. Our programmes for primary pupils (9 to 11 years old) and secondary students (11 to 18 years old), ***The Language Learner*** and ***The Bilingual Student***, are tailored to meet the specific needs of language learners and bilingual students.

Let's Learn & Play and Let's Learn & Read

Our courses focus not only on language and reading skills but also mathematical concepts, problem-solving, cultural awareness, art, geography, history and more. The method was not stumbled upon by chance or accident. It is the result of a conscious understanding of how children learn and acquire language and reading skills. The structure makes it both ideal and successful for excelling a child in their mother tongue or building their foundations in a second language. This is truly unique and provides children with an incredible head start in their future learning.

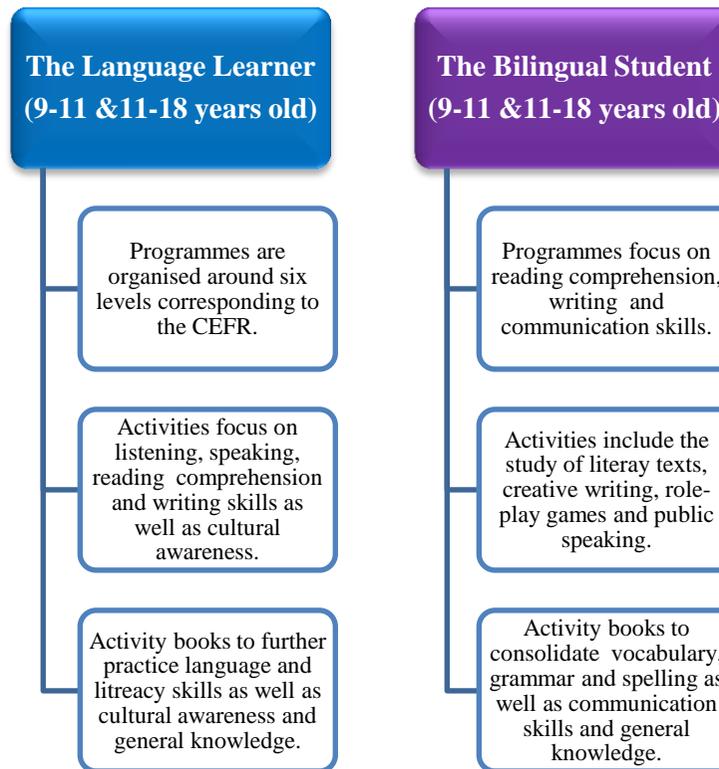

The Language Learner and The Bilingual Student

The Language Learner is a programme structured around six levels corresponding to the Common European Framework of Reference for Languages (CEFR). The activities focus on listening, speaking, reading and writing skills as well as cultural awareness. We also prepare for examinations.

The Bilingual Student is a course that supports language, literacy and communication competencies. The activities focus on reading comprehension, grammar and vocabulary as well as listening and speaking skills. We also prepare for examinations.

One to One or Share the Fee

Avery Hill Education – Home Learning – is a solution suitable for parents looking for tailored online language classes. We organise one to one classes, but also offer a solution called *Share the Fee* which allows a parent to share the cost of a course with another parent.

- **Age range:** 4 to 18 years old
- **Courses length:** 6 weeks (renewable)
- **Duration of an online class:** 30 minutes or 1 hour (depending on the age)
- **Dates & times:** Weekdays and weekends between 10am and 6pm GMT
- **Languages available:** English, French, Spanish and German.
- **Fees:**
