

# The Tales of Arthur the Elf

## Arthur the Elf and Friends

Hello, children! My name is Arthur and  
I am an elf!

I come from an enchanted forest called Lutinia. We live in tall, majestic trees. Our school is inside the widest, tallest tree!

I have very good friends amongst the magical animals and elves. We learn and work together in this wonderful, colourful wood.

Our language teacher's name is Miss Lachouette. She teaches all the magical animals and elves to sing in different languages!

Hello, Miss Lachouette!  
How are you?

Hello, Arthur!  
I am very well,  
thank you.

Our science teacher's name is Mister Longview. He builds special machines and makes magic potions with the plants he collects.

Hello, Mister Longview!  
How are you?

Hello, Arthur!  
I am very well,  
thank you.

My friend, Jane, is a skilled pilot. She flies through galaxies and around planets. Her magic aeroplane can go anywhere you can imagine.

Hello, Jane!  
How are you?

Hello, Arthur!  
I am very well,  
thank you.

My friend, Leo, is an expert in geography and cartography. He once drew an impressive map that he called the 'World of Children'.
